

# RELATÓRIU ANUAL 2019

## LIAN MAKLOKEK

Exelencias, Maluk sani naín sira!

Lori konsellu Diretivu, komité jestaun, no serbisu naín sira ne'ebé haknar an iha ANPM sira hotu nia naran atan ha'u hakarak aprezenta relatoriu instituisaun nian ba tinan 2019 ba ita boot sira nia futar oin.

Ita boot sira sei bele sani iha relatoriu ne'e katak, ba ANPM, tinan 2019, hanesan mos tinan hirak liu ba, marka mos hanesan tinan ida ne'ebé mak nakonu ho atividades signifikativa lubuk ida ne'ebé bele kontribui mos ba dezenvolvimentu nasau nian, espesifikasiamente iha área petróleo no minaraís.

Iha parte dezenvolvimentu atividades petrolíferas iha area konjunta iha tasi Timor, hafoin de negosiasiun naruk ho Australia nomos contratantes id-idak ne'ebé nia kontratu afetadu husi Tratadu Fronteira Marítima entre Timor-Leste no Australia asina iha Marsu 2018, iha loron 28 fulan Agostu 2019, ANPM asina kontratu foun nen iha Dili. Haktuir rekerementu iha Aneksu D husi Tratadu Fronteira Marítima refere, konklusaun ba kontratu sira ne'e mak ikus mai fo dalan ba Tratadu Fronteira Marítima nia ratifikasiun iha loron 30 fulan Agostu 2019. Ho konklusaun ba prosesu refere kontratu nen refere iha leten tama ona mai Timor-Leste nia jurisdisaun, inkluindu projeto Bayu Undan. Hafoin de prosesu refere iha leten remata, ANPM hahu inisia mos negosiasiun foun ida tuir rekerementu iha Aneksu B husi Tratadu mak hanesan estabelesementu regime legal, contratual ba Greater Sunrise.

Relaciona ho atividades promosaun ba investimento iha area petrolíferas, iha inisiu fulan Otubru ita hala'o ba dahuluk simeira Internasional petroleo no gas iha Dili, no iha biban hanesan halo lansamentu ba konkursu Internasional ba investimento iha setor petrolíferas iha Timor-Leste. Partisipasaun husi delegadus Industria nian husi rai li'ur liu nasaun ruanulu hatudu katak Timor-Leste nia setor petróleo sei nafatin atrai investores sira nia atensaun no interesse. Hafoin de simeira ne'e ANPM hahu kedes ho atividades promosaun ba potensias petrolíferas haleú mundo toó tinan rohan no sei kontinua nafatin iha tinan 2020.

Iha parte upstream, projeto Bayu Undan kontinua sai hanesan úniku projeto ne'ebé mak halo produsaun no lori reseitas mai Timor-Leste. Partes hotu haksolok tambo posu dezenvolvimentu tolù ne'ebe mak fura iha projeto Bayu Undan suksesu hotu no ikus mai fo aumentu inkremental ba produsaun no sertamente aumentu mos iha reseitas ba estadu. Kontratu seluk iha parte tasi ka offshore nian maioria iha faze peskiza, inkluindu perfurasaun iha area kontratu TL-SO-19-11 ne'ebé mak la viavel komersialmente. Iha sorin seluk, iha area rai maran nian, kompaña Timor Resources finaliza estudus ba dadus sízmiku ba bloku A no konfirma prospeitus balun atu halo perfurasaun. No entantu iha bloku C kompaña operador hanesan konsegue konklui ho di'ak akizasaun dadus sízmiku iha bloku C. Hafoin de ne'e, iha rohan tinan 2019, kompaña Sunda gas baseadá iha Singapura asegura kontratu foun ida ho ANPM atu halo peskiza mais detalhada ba posu gas Chuditch, iha parte sul husi kampu Greater Sunrise.

Iha parte Downstream nian, esforsu atu regulariza atividades importasaun no forneamento no distribuisaun kombustives iha rai laran kontinua nafatin. Ita haksolok hare numeru lisensa ne'ebé mak aumenta signifikadu tebes iha 2019 iha nível komersializaun, operaun estasaun kombustives, no area armazenamentu kombustives iha Timor-Leste. Hanesan meius ida atu asegura interesse público, ANPM iha tinan refere hahu hala'o kalibrasaun ba metrus komersial iha estasaun kombustives sira. Alem de ne'e iha tinan 2019 mos ANPM hahu dezeña ona sistema lisensa online ne'ebé mak planeadu atu

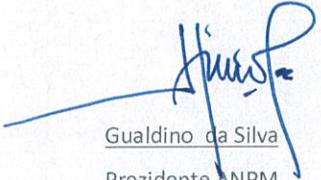

bele konklui iha tinan 2020. Ne'e hotu hanesan esforsu instituisaun nian atu simplifika burokrasia ba emisaun lisensa sira no promove transparensia iha prosesu tomak.

Iha area mineral nian, reseitas ba estadu kontinua aumenta mesmo kiik kompara ho setor petrolífera. Esforsu Instituisaun nian atu regulariza atividades pedreiras iha rai laran mak kontribui makaás ba aumento reseita refere iha leten, inklindu taxa rekolha husi kompania balun ne'ebé mak komesa hetan lisensa ba peskiza rekursu minerais. Prosesu naruk ba aprovisaun lisensa estrasaun fatuk ba mega-projeto Portu Tibar sai mos hanesan atividades maiores ida ba ANPM ne'ebé mos inklui aprovisaun Estudu Impaktu Ambiental hamutuk ho ministeriu relevantes seluk.

Atividades importante seluk mak hanesan finalizasaun Dekretu Lei ba operasaun petrolíferas iha onshore, nomos dekretu lei kona-ba utilizasaun materiais esplosivos iha Industria Estrativas. Iha mos esbosu lei importante seluk ne'ebé presiza hetan aprovisaun husi nai ulun sira iha tinan tuir mai, hanesan lei kodigu mineiru no esbosu dekretu lei Laboral ba Industria estrativas.

Sani nain sira hotu, ami hein katak relatoriu ida ne'e bele partilha informasaun suficiente no bele aumenta ita boot sira nia kuñesementu no akompañamentu ba atividades petrolíferas no minerais iha Timor-Leste, inklindu funzionamentu atividades reguladora nian iha área ne'e. Ami nafatin simu maluk sira nia krítikas konstrutivas no hanoin lisuk atu hadi'a liu tan ANPM nia relatoriu iha tinan oin mai.

Obrigado ba atensaun!

Gualdino da Silva

Presidente ANPM

# 1. AUTORIDADE NACIONAL DO PETRÓLEO E MINERAIS- IHA TINAN 2019

Autoridade Nacional do Petróleo e Minerais (ANPM) hanesan instituisaun publiku Timor-Leste nian, ne'ebé estabelese ho dekretu lei No.27/2019, Iorom 29 Agostu, alterasaun daruak husi dekretu lei No.20/2008, Iorom 19 Juñu.

ANPM mak instituisaun ida ne'ebé autonomu iha finanseira no administrativa hodi hala'o funsaun nudar autoridade reguladora ba atividade sira ne'ebé relasiona ho mina-rai, gas, no minerais, tuir dispozisoen sira hanesan Lei ba Atividade sira Petrolíferu nian, Kodigu Mineiro ba Petroleo, no Tratadu Fronteiras Maritimas.

## 1.1 ANPM NIA KNAAR JURISDISAUN

Iha JPDA ANPM responsabiliza ba Komisaun Konjunta no hala'o jestaun no regulamentu ba atividade petróleo sira upstream nian liu husi supervisaun regular no kontrola atividade petrolíferu nian inklui saude, siguransa serbisu, protesaun ba meiu ambiente no avaliaun ba pratika sira serbisu nian. Responsabilidade ne'e remata wainhira Tratadu Fronteira Maritma ratifika no vigora iha Iorom 30 Agostu 2019. Bazeia ba Tratadu Fronteira Maritima, ANPM nia responsabilidade atu regula no maneja atividade petróleo no minerais iha área Timor-Leste (rai maran no tasi laran) inklui Rejime Espesial Greater Sunrise.

Iha Tasi laran ka Offshore área esklusiva Timor-Leste nian, alem responsavel ba atividade petrolíferu sira upstream nian hanesan mos ba hirak ne'ebé iha JPDA, ANPM mos responsavel ba regula atividade petrolíferu sira downstream nian inklui mos fornesementu, prosesamentu, armazenamentu, transportasaun, komersiu, no mos komersializasaun ba produtu mina no gasudutu nian.

Iha parte seluk, ANPM mos responsavel ba regula atividade mineiro nian iha teritoriu tomak hahu husi faze rekoinesementu, esplorasaun, avaliaun, dezenvolvimentu, esploitasaun, prosesamentu, refinasaun, transportasaun no komersializasaun.

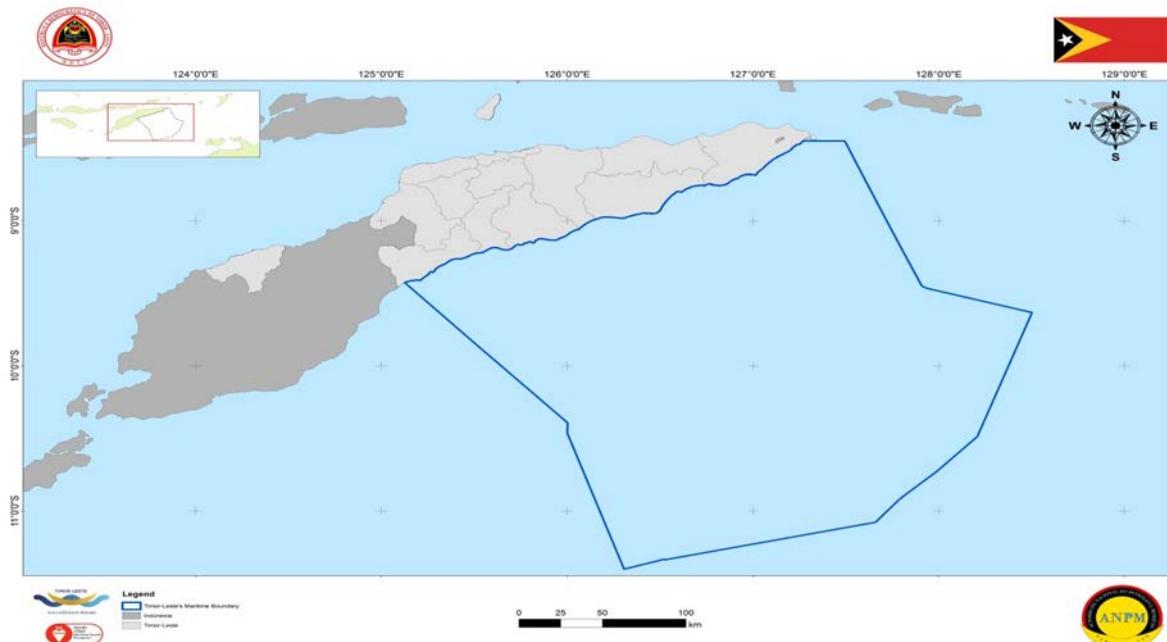

FIGURA 1: ÁREA JURISDISAUN ANPM (MAPA LA TUIR ESKALA)

## 1.2 VALOR, VIZAUN, MISAUN NO OBJETIVU

### VALOR SIRA

#### Kolaborasaun

Hari kolaborasaun ida eficiente no efetivu entre (i) Diresaun sira iha ANPM, no (ii) parseiru sira.

#### Nakloke

Onestidade no transparansia – apoiu ho kultura konfiansa no respeitu

#### Unidade

ANPM promove serbisu hamutuk ho ninia funtionariu sira no diresaun sira. Apresia

no respeitu diversidade kultura intelektual sira, ANPM unidu iha ambiisaun hodi sai organizasaun nivel mundial ida iha Timor-Leste.

#### Responsabilidade

Hanesan profissionais lolos, membru ekipa ANPM iha responsabilidade tomak ba sira nia asaun

#### Akuntabilidade

ANPM no nia membru ekipa sira responsabiliza ba padraun étika sira, hahlok, no desempeñu – iha kualker tempu. Liu tan ANPM mos responsabilidade ba guvernu Timor-Leste. Wainhira hala'o serbisu sira iha Área Rejime Espesial Greater Sunrise, ANPM responsabiliza ba Timor- Leste no Australia, no foti asaun hodi nasaun rua nia naran.

#### Vizaun Global

ANPM iha vizaun ida global maske nia hala'o nia operasaun iha Timor-Leste. ANPM serbisu no kordena atividade sira ho operador multinasional sira.

#### Excellencia

Atu bele dezenvolve organizasaun nasional ho kualidade mundial ida, ANPM ekselente iha buat hot-hotu ne'ebé mak nia halo.

## VIZAUN NO MISAUN

### Vizaun

- Sai matadalan ba autoridade reguladora Petróleo no Minerais iha rejaun no modelu ba desenvolvimentu institusional iha Timor Leste.

### Misaun

- Maksimiza reseita no multiplika benefisiu ekonomiku;
- Maksimiza Timor-Leste nia partisipasaun iha desenvolvimentu setor petrolíferu no mineiru;
- Promove lala'ok diak iha saude, siguransa serbisu no meiu ambiente;
- Desenvolve kapasidade institusional Timor-Leste nian iha seitor petrolíferu no mineiru.

## OBJETIVU

Garante katak rekursu petrolíferu no mineiru sira tomak sei esplora, dezenvolve administra no regula ho efetivu;

Garante kata vantajen ekonomiku sira tomak hato'o ona ba estadu kontratante;

Aumenta oportunidade empregu ba sidadaun Timoroan;

Dezenvolve organizasaun ho Exelente;

Promove no garante pratika di'ak ba SSM (Saude, Siguransa Serbisu no Meiu Ambiente) nian;

Regula atividade sira Downstream nian iha Timor-Leste;

Maksimiza atividade ekonomia ba setor petróleo no minerais nian iha Timor-Leste.

## 1.3 DEZENVOLVIMENTU NO ESTRUTURA BA ORGANIZASAUN

### ESTRUTURA

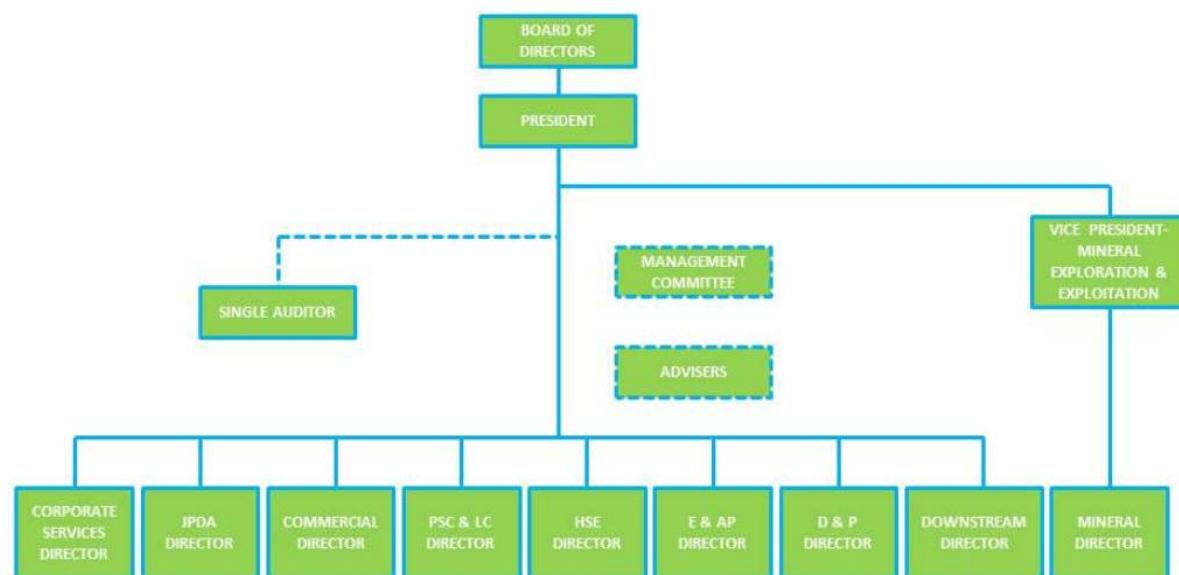

DIAGRAMA 1: ESTRUTURA ORGANIZASAUN ANPM NIAN (DIRESAUN JPDA LA EZISTE ONA HAHU 1 SETEMBRU 2019)

## KONSELLU DIRETIVU

Konsellu diretivu ANPM tinan 2019 Kompostu husi:

Gualdino da Silva ,BEng(GeoEng) Hons.	Presidente
Jorge Dasilaku Martins, Msc	Membru La'os Ezekutivu
Jose Manuel Gonçalves, BEng(MiningEng)	Membru Ezekutivu
Mateus da Costa, MSc	Membru Ezekutivu

## 2.3 ATIVIDADE SERBISU PRODUSAUN PETRÓLEO NIAN

### KAMPU BAYU-UNDAN (PSC TL-SO-T 19-12 & PSC TL-SO-T 19-13)

Kampu Bayu Undan (BU) hanesan kampu gas kondensadu ne'ebé lokaliza iha área tasi Timor-Leste nian. Kampu ne'e opera husi ConocoPhillips ho ninia parseiru sira (Joint Ventures) no nia distansia 250km husi kosta Sul Suai, Timor-Leste. Fasilitade kampu Bayu Undan fahe ba tipu rua mak hanesan fasilitade tasi laran (Offshore facility) no fasilitade iha rai maran (onshore facility, Darwin LNG). Fasilitade iha tasi laran ne'e rasik kompostu husi plataforma Sentru Produsaun no Prosesamentu (DPP ho CUQ), Ro'o namlele (FSO), Plataforma WP1, kadoras kampu iha tasi okos (subsea) no kadoras esportasaun (pipeline) gas nian ba Darwin.

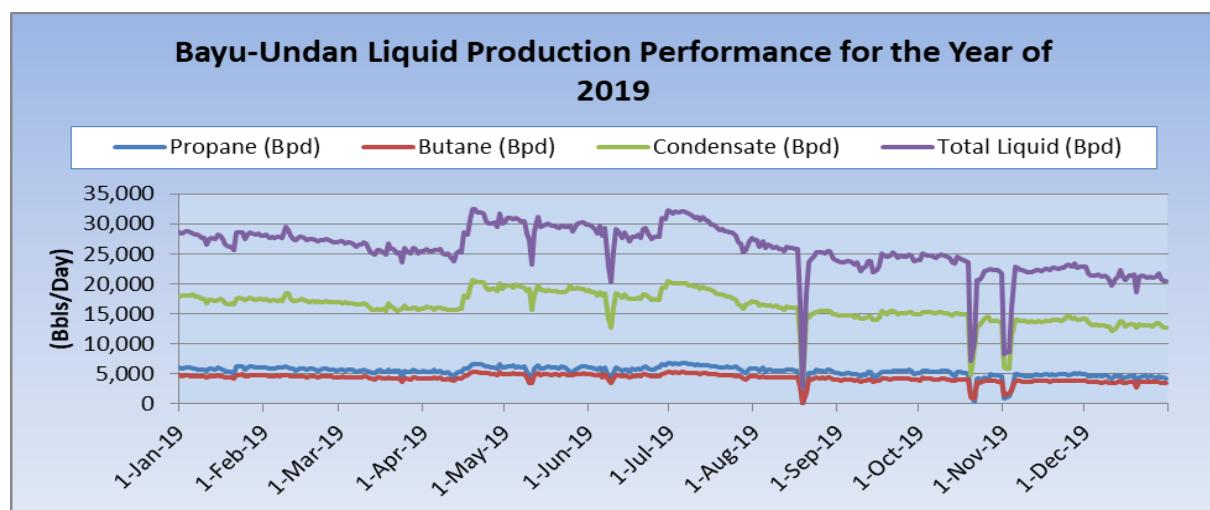

*FIGURA 13: MAPA LOCALIZASAUN KAMPU BU*

*FIGURA 14: FASILIDADE BU*

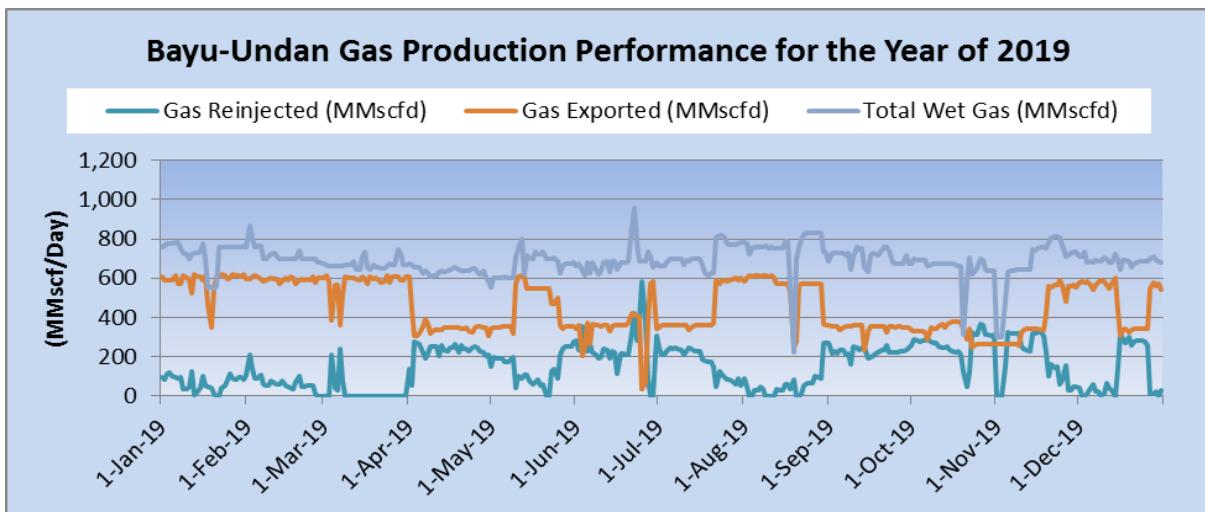

Alem ida ne'e, projetu Bayu-Undan konsidera hanesan "partial gas recycling" ka reinjeksaun fali gas balun ba rezervatori liu husi posu ha'at (4) ne'ebé dedika ona ba atividade ne'e. Tanba kampu ne'e komesa maduru ona no produsaun gas husi posu sira ne'ebé eziste komesa menus dadaun, posu reinjeksaun sira sei gradualmente transforma ba posu produsaun. Istorikamente, posu injetor rua (2) mak transforma ona ba atividade produsaun iha Janeiru 2015 (D14) no Janeiru 2018 (D04), enkuantu posu rua seluk (D09 no D15) sei funsiona hanesan injektor gas.

Iha tinan 2019 kampu Bayu-Undan produs husi posu produsaun 13 ne'ebé kompustu husi posu R2P (posu reinjeksaun fila ba produsaun) hamutuk posu 2, "infill well" hamutuk posu 3 no posu produsaun 8 husi sira ne'ebé eziste ona hodi halo produsaun. Total ba produsaun gas kondensadu (gas bokon) liu husi posu produsaun sira mak 252.63 BCF no likuidu (condensadu no LPG) mak 9.42 MMbbls. Iha sorin seluk, total annual gas esportasaun ba Darwin-LNG mak 165.90 BCF. Durante tinan ne'e nia laran, iha mos interupsaun balun ne'ebé prejudika produsaun mak hanesan "half rate (metade produsaun)" rezulta demanda husi Darwin-LNG, intervensaun ba posu (W06, W11 no D10), kampaña ba atividade planta manutensaun, planta taka kausa ba CPP PSD & FSO ESD1, eventu DLNG SDP, Darwin-LNG taka durante oras 36 kausa husi interupsaun hodi kompleta assuntu kritikal ligadu ba manutensaun DLNG iha 25 de Juñu 2019. Alem sira ne'e hotu, iha mos posu balun ne'ebé taka (ou la halo produsaun) tanba kauza husi produsaun be'e barak no redusaun ba produsaun gas, partikularmente posu sira ne'ebé lokaliza iha área ho naran "superblock" iha rezervotoriu Bayu Undan.

GRAFIKA 1: TOTAL PRODUSAUN LIKUIDU

Bazeia ba observasaun grafika iha leten total ba produsaun likuidu kuaze estavel ho produsaun 25.000 bbls kada loron, ezetu iha segundu semana fulan Agostu (husi 18 to 23) no husi semana ikus fulan Agostu to'o segundu semana fulan Setembru (husi 30 Agostu to'o 16 de Setembru) no mos komesa husi fulan Outubru (klaran) ba oin, ita hare produsaun ba likuidu tun liu husi 25.000 bbls kauza husi CCP ho FSO PSD iha loron 18-20 Agostu, teste ba posu R2P, PSD iha loron 20 fulan Outubru resulta mos redusaun produsaun ba posu sira hanesan D13, W11 no DS02.

GRAFIKA 2: TOTAL GAS BOKON, INJEKSAUN GAS NO ESPORTASAUN GAS

Durante tinan 2019, media produsaun ba gas kondensadu hamutuk 692 MMscfd. Adisional total gas ba injeksaun gas durante tinan 2019 hamutuk 54.49 BCF. Volume injeksaun ba gas sa'e iha tinan klaran 2019 maioriamente kauza husi redus produsaun ba planta DLNG (half rate), eventu planeadu *ba DLNG ho zero produsaun taxa (DLNG planned zero rate)* no hahu fali fasilidade.

### KAMPU KITAN (PSC JPDA 06-105)

Kampu Kitan lokaliza iha Tasi Timor JPDA área ho distansia aprosimadamente 170 km husi Sul husi Kosta Sul Timor-Leste. Oras ne'e dadaun kampu ne'e la halo produsaun tanba taka ona hahu husi loron 16 fulan Dezembru 2015. Kadoras produsaun sira mos desliga tiha ona no kompleta ona hamos fasilidade prosesu planta produsaun. Ro'o ne'ebé uza ba produsaun ka "FPSO" sai ona husi kampu Kitan iha loron 27 fulan Fevereiru 2016.

Oras ne'e dadaun, ANPM iha pozisaun ne'ebé kontinua diskusaun ho operador ENI konaba metodolojia no tempu ba halo atividade dismantelamentu/abandonamento final. Alem ida ne'e, tetu mos aspeitu redezenvolvimentu ba kampu ne'e.

### 2.4 ATIVIDADE SAÚDE, SIGURANSA NO MEIU AMBIENTE NIAN

Diresaun Saude, Siguransa no Ambiente maka responsabiliza hodi regula no aplika ezekusaun lejislasaun relevante iha Timor-Leste no Área Dezenvolvimentu Petróleum Konjunta (JPDA), ho objetivu atu asegura katak operador-sira kontrola no jere risku operasaun nian ba nivel ne'ebé razoavelmente pratikavel (As Low As Reasonably Practicable – ALARP). JPDA ikus mai la eziste ona no sai fali hanesan Tasi Timor-Leste nian depois de ratifikasiun Tratadu Fronteira Marítima entre Timor-Leste no Australia iha loron 30 Agostu 2019.

Operasaun bo'ot petróleum nian ne'ebé implementa ona husi operador sira iha 2019 maka estudu sízmiku iha área kontratu KFP TL-OT-17-09 iha Munisípiu Manufahi no Ainaro, perfurasaun Kanase-1 iha área kontratu KFP TL-SO-T 19-

11 no atividade manutensaun no intervensaun ba posu iha Kampu Bayu-Undan, área kontratu KFP TL-SO-T 19-12 no KFP TL-SO-T 19-13.

Diresaun SSA ANPM nia serbisu foka prinsipalmente ba prevene insidente/asidente no atu asegura katak operador sira kontinua responsavel ba operaun seguru. ANPM kontinua foka ba foti medida sira konsideravel hodi hadi'a bebeik (continuous improvement) no efetivamente regula setor ida-ne'e. Diresaun SSA iha ANPM kumpri nia funsaun liu husi halo avaliaisaun ne'ebé rigorosa ba dokumentu sira operador nian, halo inspesaun, investigasaun no ezekusaun lei sira bainhira presiza.

## LALA'OK SSA IHA JPDA

### a). Insidenti SSA iha Kampu Bayu Undan

Operador sira obrigadu atu relata insidente sira ba ANPM. Insidente sira fahe ba iha insidente reportável no insidente rejistráveis inklui mos akontesimentu sira perigozu. Insidente reportável no akontesimentu sira perigozu tenke relata imediatamente ka iha oras 48 nia laran ba ANPM. Operador sira mos fornese informasaun konaba insidente sira rejistráveis no sumáriu husi ninia dezempeňu SSA nian ba ANPM kada fulan. Dadus ne'e importante tebes tanba facilita ANPM hodi monitor no avalia operador sira nia dezempeňu SSA nian. No mos ANPM halo analiza ba dadus hirak ne'e hodi estabelese tendênsia (trend) insidente sira nian, nune'e permite Diresaun SSA atu foka ninia serbisu sira regulatóriu nian ba área preokupasaun espesífika.

Jeralmente, iha 2019, iha insidente atus rua resin rua (202) maka rejista husi atividade sira petrolífera iha Kampu Bayu-Undan. Husi insidente hirak ne'e, insidente rua maka klasifika hanesan insidente reportável. Insidente rua ne'e akontese iha fulan Setembru no Otubru 2019, ne'ebé hetan investigasaun husi operador no imediatamente relata ba ANPM. Insidente rua ne'e klasifika hanesan kuaze asidente (near miss). Ida dahuluk mak hetan ahi (korente eletrisidade) bainhira halo teste ba 240 volt fornese ba motor de aranka GT3 nian, ne'ebé dizligadu ona. Ida daruak maka silindru N2 monu-tun husi main deck hatch ba 3rd deck forward machinery space.

Diagrama no gráfico tuir mai ne'e hatudu persentajen husi kada insidente tuir tipu/kategoria insidente ne'ebé fahe tuir kada fulan durante 2019, ba total oras serbisu (manhours) 1,053,930.

## FORMASAUN NO PROGRAMA DEZENVOLVIMENTU NO PROGRESU BA KAREIRA HUSI KONTRATOR SIRA IHA 2019 IHA BAYU UNDAN

Iha formasaun oin-oin no programa dezenvolvimentu ba kompetensia oferese husi kontrator sira ba Timor oan no mos promosaun ba Timor oan sira iha tinan 2019, mak hanesan tuir mai ne'e:

### a). CAPL-Formasaun ba Core Crew operasaun no Manutensaun

- **Formasaun**
  - Formandu Timor oan nain ualu (8) iha área instrumentasaun, hetan no simu Sertifikadu Nivel III iha área Instrumentasaun no Kontrolu, hafoin sira halo kompleta sira nia formasaun iha área refere iha Universidade Charles Darwin (CDU) Australia iha tinan 2019.
  - Timor oan nain rua (2) hetan Diploma iha área *Work Health and Safety* hafoin realiza formasaun ne'e iha Darwin no kompleta mos formasaun ba *TapRo'ot Investigation* iha Perth
  - Timor oan nain tolu (3) ne'ebé serbisu nudar Blaster Painters mos finaliza sira nia formasaun *IRATA* (*Industrial Rope Access Training Association*)
  - Timor oan ida (1) ne'ebé serbisu nudar *Project Training Administrator* mos halo konklui ona *on the Job Training* iha Perth

### • **Promosaun**

Iha tinan 2019, iha mos promosaun ba Timor oan sira hanesan resultadu husi formasaun no programa kapasitasaun. Promosaun sira ne'e mak hanesan, Timor oan nain rua (2) serbisu hanesan Mechanical Technician promove ba *Specialist Trade IRATA*, Nivel 1, kategoria espesializada, hafoin simu formasaun no passa *Rope Access* Nivel 1. Promosaun Timor oan nain rua (2) serbisu nudar *Advanced Scaffolder*; no Timor oan ida (1) serbisu nudar *Blaster Painter ba Leading Hand Roles*, kategoria espesializada. Promosaun ba Timor oan nain ha'at (4) serbisu nudar *Intermediate Scaffolder* ba *Advanced Scaffolder* no mos promosaun ba Timor oan nain rua (2) ne'ebé serbisu iha rai maran hanesan *Data Analyst* promove ba *Office Administsrator* no *Senior Administrator* promove ba *Office Coordinator/Supervisor*.

### b). Babcock – Kontrator ba Serbisu Helikoptru

- Formando Co-pilotu ne'ebé hetan *Licensa Pilotu Helikoptru Komersial (Commercial Pilot Helicopter License (CPL))*;

Agora dadaun Timor oan ne'e serbisu no halo hela nia funsaun iha Babcock nia base operasaun nian hodi tulun nia atu hetan esperiensia iha nivel operasaun nian hodi nune'e bele suporta nia promosaun ba kareira.

- **Timor oan nian rua (2) nudar Airframe Engine Engineer Apprentices**
  - Sira kompleta ona modulu sia (9 husi modulu sanulu resin ida (11) ne'ebé inklui Mathematics, Physics, Electrical Fundamentals, Materials and Hardware, Maintenance practices, Aerodynamics, Human Factors, Helicopter Aerodynamics, Gas Turbine engines iha Australia Aviation iha Cairns.
  - Atu finaliza modulu restu sira ne'e, tempu remarkadu fali ona ba Timor oan nain rua (2) iha tinan 2020.
- **Avionics engineering apprentice ida seluk**  

Tanba la susesu atinzi Commercial Pilot Helicopter Licensed, organiza fali ba eis Co-Pilot ne'e atu ba partisipa fali formasaun EASA (European Aviation Safety Agency) B1.3 iha fulan Agostu 2020 iha Cairns Australia. Agora dadaun eis Co-Pilot ne'e serbisu hela iha Babcock nia Hangar iha Dili atu aumenta esperiensia hodi bele suporta nia hetan emisaun ba akreditasaun B2 wainhira konklui ona formasaun.
- **Operations staff and General Hands**  

Sira mos hetan formasaun iha lian English iha tinan 2019.

#### c). ESS – Kontrator ba fornesimentu hahan no hospitalidade

Hafoin ESS realiza fali re-avaliasaun komparativa ba nia empregu sira iha fulan Julu 2018, monitorizasaun kontinua hala'o nafatin ba ESS hodi bele atinzi meta 100% ba empregu Timor ona iha tasi laran iha inisiu tinan 2020.

Formasaun no kapasitasaun ba Timor oan hodi supporta atinzimentu ne'e mak hanesan tuir mai ne'e:

- **Tasi laran**
  - Timor oan nain tolu (3) iha pozisaun Offshore Unit Manager (OUM) kompleta ona sira nia formasaun konaba elevasaun ba kompetensia (enhanced competency training) , formasaun iha Saude, Seguransa no Ijiene (Health and Safety and Environment) iha Perth no formsaun konaba offhsore rostering no scheduling iha fulan Maiu 2019.
  - Timor oan nain ha'at (4) iha pozisaun Xefi Kuzina (Chefs) hahu suporta sira nia tranzisaun husi Dezenvolvimentu Profesional (Professional Development/PD) daruak (2) husi formasaun konaba elevasaun ba kompetensia (enhanced competency training) iha Setembru 2019 no sei konklui iha Dezembru 2020.
  - Konklui ona 100% PD dahuluk (1) husi Kuziñeiru(cooks) Timor oan nain rua (2) no agora iha prosesu tranzisaun ba PD daruak husi Juñu 2020 to'o Agostu 2020
  - Kuziñeiru (cooks) Timor oan nain rua (2) totalmente konklui ona sira nia tranzisaun ba iha sira nia kna'ar iha Fevereiru 2019.
- **Rai maran**
  - Timor oan iha kna'ar nudar Jerenti Lojistika (Logistic Manager) kompleta nia formasaun kona ba Prosedura ba Alfandega no Karantina nian (Custom and Quarantine Procedures)
  - Timor oan iha kna'ar nudar Office Administrator mos konklui ona formasaun kona ba jestor sistema no previzaun tripulasaun nian (systems Manager and Manning Forecasting)

#### d). Oceaneering – Kontrator ba Non-destructive Testing (DNT no Inspesaun

Formandu Timor oan iha área *Non-Destructive Testing (NDT)* sei simu sira nia validasaun ba sertifikasi saun husi orgaun sertifikasi saun BINDT (*British Institute of Non-Destructive Testing*) iha Trimestre dahuluk tinan 2020, hafoin konklui no pasa ijame ba disiplina *NDT* nian.

Timor oan nian rua (2) atinzi mos akreditasaun ba *PCN (Personnel Certification in Non-Destructive Testing)* Nivel II. Sira agora dadaun halo hela rotasaun permanenti iha tasi laran ho ekipa tasi laran sira seluk. Tuir planu, iha Semestre dahuluk tinan 2020, tekniku sira ne'e sei ba tuir mos formasaun kona ba *Western Australia Radiation Safety License* atu permiti sira nia dezenvolvimentu kareira ba *PCN Radiographic Testin*, Nivel II no TCS Pty Ltd sei fó treinu mos ba sira iha Perth.

Iha tinan 2019, Timor oan iha kna'ar *Asset Integrity Coordinator* konklui formsaaun tolu (3) mak hanesan formasaun husi ConocoPhillips konaba PCMS (Plant Condition Management Software), Formasaun ba Lideransa husi Oceaneering no formasaun online ba Sertifikadu Nivel IV iha área negosiu nian (*online Certificate IV training in Business Administration*) ne'ebé hahu iha 8 Otubru 2019 no sei finaliza iha janeiru 2021.

#### e). Wood Group – Kontrator ba serbisu Enziñaria

- Formasaun
  - Sertifikadu ba Kompetensia hitu (7) iha Enziñaria Mekanika mos entrega durante formasaun iha fulan tolu (3) nia laran
  - Kursu no preparasaun izame ba sertifikadu IELTS nian
- Promosaun
  - Iha tinan 2019, iha pomosaun ha'at (4) ne'ebé akontese hanesan, Timor ona nain rua (2) Junior Designer promove ba Designer no Timor oan nain rua (2) iha kna'ar nudar Formandu Desginer (Trainee Designer) promove ba Junior Designer

#### f). Kontrator Seluk

Kontrator sira seluk mak hanesan SDV, Altus, Kotug Maritime, MMA no kontrator jeral sira seluk (Air North, Callidus, Halliburton, RMS, Stamford, Contract Resources , Qube, etc) oferece mos oportunidade ba empregu no programa formasaun ba Timor oan sira haktuir no bazeia ba sira nia komprimisu no planu kontuedu lokal tinan 2019 nian.

#### g). Programa Estajiariu ba Graduadu Timor oan sira (TL GIP)

Ho susesu implementasaun ba Grupu dahuluk (1) ba programa estajiariu ba Graduadu sira, ConocoPhillips no nia *Joint Ventures* sira espresa ona sira nia kompremisu atu kontinua suporta programa refere ba Grupu daruak (2). Rekrutamento ba Grupu daruak (2) ezekuta ona iha tinan 2018 ne'ebé resulta iha selesaun ba kandidatu Timor oan nain sanulu resin ha'at (14) hodi partisipa formasaun baabilidade fundamentais nian iha Etapa Dahuluk (I) ne'ebé realiza husi Semestre ikus tinan 2018 to'o Semestre daruak (2) tinan 2019 iha Dili no mos Darwin. Hafoin konklui programa ba etapa dahuluk (1), formandu nain sanulu resin ha'at (14) ho susesu gradua iha loron 13 Maiu 2019 iha Timor Plaza.

FIGURA 15: SEREMÓNIA GRADUASAUN ESTAZIARIU SIRA

ConocoPhillips ba fulan sanulu resin rua (12-month), hafoin kompleta sira nia prosesu pre-empregu nian no asina kontratru ho ConocoPhillips.

Programa estaziu hahu iha fulan Setembru 2019, ida ne’ebé estaziariu sira kolokadu iha Departamentu ida-idak iha ConocoPhillips hanesan Departamentu Finansas, Informasaun Teknolozia, Kadeia Suprimentus (*Supply Chain*), Explorasaun, Marina no Enziñaria hodi kapasita sira atu aumenta kuiñesementu konaba industria riil no aumentaabilidade adisional ne’ebé ejije husi industria sira. Estaziariu sira hotu baze iha Perth no Darwin.

Durante estaziu, ConocoPhillips nia espesialista sira fó orientasaun (*mentoring*) ba estaziariu sira, kontinua dezenvolve lian English no mos aprendizazem iha fatin serbisu tuir área ida-idak nian.

Konsidera katak apresentasaun trimestral sai hanesan aspetu esensial ba programa ida ne’e, hodi apresenta estaziariu sira nia prosesu aprendizazem no dezenvolvimento iha sira ida-idak nia área, nune’e, atividade ida ne’e esensial tebes atu bele ezekuta iha kada trimestral. Apresentasaun dahuluk realiza ona iha loron 5 Dezembru 2019, no apresentasaun sira seluk sei hala’o iha Marsu 2020, Juñu 2020 no Setembru 2020, molok programa estaziariu ne’e remata iha trimestral ikus iha tinan 2020.

Hafoin gradusaun, ekipa tekniku grupu traballu ne’ebé kompostu husi ANPM no ConocoPhillips realiza programa sesaun envolvimentu industria (*industry engagement session*) iha loron 7 Juñu 2019, ne’ebé partisipa husi indsutria lokal liu sanulu resin lima (15), hodi promove Timor ona sira niaabilidade no esperiencia ba industria Timor nian ne’ebé potensial. ConocoPhillips dezeñu no sei implementa eventu hanesan ba estaziariu sira iha etapa daruak (2), wainhira sira konklui ona sira nia programa estaziu ba fulan sanulu resin rua (12-month) ho ConocoPhillips.

Estaziariu nain hitu (7) ne’ebé selesionadu ba etapa tuir mai, ingresandu ba programa estaziu remuneradu ho

TABELA 22: REALIZASAUN PLANU IMPORTASAUN

Tabela iha leten hatudu katak taxa atual ne'ebé simu husi atividade Komersializasaun ba tinan 2019 hamutuk \$125,028 Husi Kompaña 39, Kompaña 16 importa liu planu annual 2019 nian no finaliza tiha ona taxa adisional 2019 nian. Kompaña 21 seluk importa menus liu planu annual no Kompaña 4 la halao atividade importasaun. Planu annual restante ho taxa husi Kompaña 7 ajusta ona ba tinan 2020 no Kompaña 1 importa bazeia tuir Planu annual 2019 nian.

### LISENSIAMENTU BA ATIVIDADE ARMAZENAMENTU

#### ➤ Infrastrutura Armazenamento Lai-Ara Nikmat Mujur

Iha trimestral ikus tinan 2019 nian, Diresaun Downstream ho asistensia husi Bro Nant International (BNI) husu Reinu Unidu hala'o inspesaun atu verifika implementasaun husi inspesaun nia rekomendasaun ne'ebé emitii iha tinan 2018. Inspesaun ida ne inklui mos teste ba tubajem (*Pipes*) atu asegura tubajem ne'ebé mak instala tuir rekezitu operasional. Inspesaun ne'e mos kobre revizaun ba dokumentu projeto no inspesaun ba facilidade no ekipamentu atu asegura konformiade ho Regulamentu Atividade Armazenamento.

FIGURA 28: INSPESAUN BA FASILIDADE ARMAZENAMENTU LAI-ARA NIKMAT MUJUR-KAITEHU, LIQUICA

➤ Proposta atu Hari'i Infrastrutura Armazenamento Foun

Diresaun Downstream simu aplikasaun foun husi Global Oil Storage Terminal, Lda atu hari'i Infraestrutura Armazenamento iha Suku Lauhata, Postu Administrativu Bazartete, Munisipiu Liquica. Kompaña refere oras ne'e iha prosesu atu finaliza Lisensensiamentu Ambiental atu priense rekezitus ba aprovasaun terenu/fatin.

➤ Kolesaun ba Taxa husi Atividade Armazenamento

Total taxa ne'ebé mak koleta husi Atividade Armazenamento iha tinan 2019 hamutuk \$597,708. Taxa ida ne mai husi taxa annual selu husi Kompaña Lisensiadu iha tinan 2018 no taxa ne'ebé selu ba periodu 2017 – 2018. Taxa ne'ebé mak seidauk selu ba tinan 2019 nian hamutuk \$403,000.

### MONITORIZASAUN BA KUALIDADE KOMBUSTIVEL

Programa monitorizasaun ba kualidade combustivel hanesan atividade ida ne'ebé mak tama iha Diresaun Downstream nia Planu Annual Estratejiku. Programa ne'e realiza atu asegura combustivel ne'ebé mak importa, distribui, fa'an no uza iha Timor-Leste kumpri ho espesifikasi saun ne'ebé mak estabelese iha Regulamentu Nu. 1/2014, husi 15 Janeiru 2014 kona ba Padraun ba Kualidade no Espesifikasi saun Kombustivel, Biokombustivel no Lubrifikante ne'ebé mak alteradu tuir Regulamentu Nu. 1/2015, iha 1 Abril.

Divizasun Inspesaun foti modelu/amostra ha'at (4) husi combustivel ne'ebé mak foti husi Infraestrutura Armazenamento Esperanca Timor Oan (ETO) no Infraestrutura Armazenamento Pertamina International Timor, S.A (PITSA). Inspetor mos foti amostra combustivel husi Postu Rodaviariu Abastesimentu Kombustivel mak hanesan Chong Ti Petróleum no Super Fuel. Modelu/amostra hamutuk ne'en (6) ne'ebé mak foti durante inspesaun anual ba kualidade iha tinan 2019 ne'ebé mak konsisti husi Gazóleo tolu (3) no Gazolina tolu (3). Gazóleo refere haruka ba Laboratoriu INTERTEK atu teste analitiku bazeia ba metodu ASTM D4814-13a (Padraun espesifikasi saun ba makina rodaviariu combustivel ) no D975 (Padraun espesifikasi saun ba Gazóleo) hanesan sita iha *Work Order* ho referensia Nu. ANPM/DS/19/1360 inkui parametru ne'ebé rekere atu ba analiza. Teste laboratoriu identifika parametru combustivel lima (5) (Gazóleo 2 no Gazolina 3) mak la tuir espesifikasi saun no ida (1) mak tuir espesifikasi saun. Parametru sira ne'ebé identifika la tuir espesifikasi saun mak hanesan distilasaun iha T95% ba Gazóleo no Oxigenate (MTBE) no Olefin ba Gazolina.

Hafoin availia tiha relatoriu analítiku husi laboratoriu, Divizaun Inspesaun prepara Memo, Relatoriu infrasaun, partisipasaun ba infrasaun, notifikasi saun konaba rezultadu analítiku husi laboratoriu ba operador no dokumentu seluk ba Diretor Downstream hodi submete ba Presidente ANPM no Konsellu Diretivu atu halo desizaun final. Iha Rekomendasauaun rua mak Divizaun Inspesaun proposta mak hanesan:

1. Atu aplika sansaun bazeia ba tipu violasaun ne'ebé mak hakerek iha Regulamentu
2. Atu sosa no estabelese teste ba *cargo acceptance* hodi halo teste ba parametru balun tuir praktika industria nian.

## AVALIASAUN BA DOKUMENTU AMBIENTAL

ANPM simu ona dokumentus Ambiental ne'ebé submete husi proponente hamutuk 57 ba atividade Downstream oioin mak hanesan Postu Abastesimentu Kombustivel, Armazenamentu Kombustivel, Infraestrutura Armazenamentu no Reabastesimentu LPG, Planta LNG no Infraestrutura Kais (Jetty). Dokumentu ne'ebé mak submete kompostu husi Dokumentu Projetu (DP), Planu Jestaun Ambiental (PJA), Deklarasaun Impaktu Ambiental Simplifikadu (DIAS), Deklarasaun Impaktu Ambiental (DIA) no Termus Referensia (ToR).

Dokumentus ne'ebé mak submete barak liu mak Planu Jestaun Ambiental (PJA) husi Postu Abastesimentu Kombustivel ezistente no Infraestrutura armazenamentu no Reabastesimentu LPG. Dokumentu seluk ne'ebé mak submete mak ba atividade Postu Abastesimentu Kombustivel no Projetu Armazenamentu Kombustivel foun.

Total Lisensa Ambiental 42 mak emite ona ba Postu Abastesimentu Kombustivel Ezistente no Postu Abastesimentu Kombustivel Foun. Emisaun ba Lisensa Ambiental baseia ba aprovasaun Planu Jestaun Ambiental no autorizasaun ba emisaun lisensa husi superior Autoridade Ambiental (Ministro do Petroleo e Recurso Minerais). ## **Independent auditor's report to the Directors of Autoridade Nacional do Petróleo e Minerais**

### **Opinion**

We have audited the financial report of Autoridade Nacional do Petróleo e Minerais ("the Authority"), which comprises the statement of financial position as at 31 December 2019, the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report presents fairly, in all material respects, the financial position of the Authority as at 31 December 2019, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards.

### **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Authority in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### **Emphasis of Matter: Subsequent Events - Impact of the Coronavirus (COVID-19) Outbreak**

We draw attention to Note 20 of the financial report which notes the World Health Organisation's declaration of the outbreak of COVID-19 as a global pandemic subsequent to 31 December 2019 and how this has been considered by the Directors in the preparation of the financial report. As set out in Note 20, no adjustments have been made to financial statements as at 31 December 2019 for the impacts of COVID-19. Our opinion is not modified in respect of this matter.

### **Information other than the financial report and auditor's report thereon**

The directors are responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

**Building a better  
working world**

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### **Responsibilities of the Directors for the financial report**

The directors of the Authority are responsible for the preparation and fair presentation of the financial report in accordance with International Financial Reporting Standards and for such internal control as the directors determine is necessary to enable the preparation and fair presentation of the financial report that is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Authority's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the directors either intend to cease the Authority's operations, or have no realistic alternative but to do so.

### **Auditor's responsibilities for the audit of the financial report**

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the International Standards on Auditing, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- ▶ Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Authority's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Authority to cease to continue as a going concern.

**Building a better  
working world**

- ▶ Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**AUTORIDADE NACIONAL DO PETRÓLEO E MINERAIS**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 31 DECEMBER 2019**

**1. NATURE OF OPERATIONS**

Autoridade Nacional do Petróleo e Minerais (ANPM) is a public institution created pursuant to the Decree Law No.27/2019 dated 27<sup>th</sup> August 2019 as the 2<sup>nd</sup> amendment to the Decree Law no. 20/2008 of the Democratic Republic of Timor-Leste dated 19 June 2008. The ANPM undertaken its role and functions as Regulatory Authority on behalf of the Ministry Responsible for Petroleum and Mineral Sectors to administer and regulate the upstream to downstream petroleum sectors and all the Mineral sectors within Timor-Leste Onshore and Offshore territory. In exercising its power and function, the ANPM shall act in accordance with Maritime Boundary Treaty (Treaty) between the Republic Democratic of Timor-Leste and Australia, including Special Regime for Greater Sunrise provided in Annex B of the Treaty, Decree Laws for implementation of the Annex D of the Treaty and other existing legislations and regulations applicable in the Territory of Timor-Leste.

In 2019, with the ratification of the Treaty on 30th August 2019, the management of the Former Joint Petroleum Development Area (JPDA) have been changed from the Designated Authority (DA) to Timor-Leste Authority for petroleum sector, however, since the changes occurred in the middle of the calendar year, the following arrangement is applied to ensure that there were no interruptions to the petroleum operations carried out in Former JPDA in transitioning to Timor-Leste exclusive jurisdictions:

*For the period prior to the ratification of the Treaty (period up to 29<sup>th</sup> August 2019) the following arrangement is applied:*

- Under Article 6(b) of the Timor Sea Treaty between the Governments of Australia and Timor-Leste, ANPM has the juridical personality and such legal capacities under the law of both Contracting States as necessary for the exercise of its powers and the performance of its functions.
- ANPM, pursuant to Article 6 of the Timor Sea Treaty, is responsible for the management of activities relating to exploration for exploitation of the petroleum resources in the Former Joint Petroleum Development Areas. This includes the collection and distribution of proceeds generated from the sale of petroleum products produced from Bayu-Undan and Kitan field. Timor-Leste and Australia shall have title to all petroleum produced in the JPDA. of the petroleum produced in the Former JPDA, ninety (90) percent shall belong to Timor-Leste and ten (10) percent shall belong to Australia

*From the date of ratification of the Treaty (30<sup>th</sup> August 2019) the following arrangement is applied:*

- Under Article 9.1(a) of the Treaty, upon entry into force of the Treaty, the Timor Sea Treaty shall cease to be in force. Subsequently, in Article 1.3 for the Annex D of the Treaty, from the ratification of the Treaty, the parties (Timor-Leste and Australia) agree that Timor-Leste shall receive all future upstream revenue derived from Petroleum Activities from Bayu Undan Gas Field and Kitan Oil Field.
- Pursuant to those provisions in the Treaty, the State entitlement of upstream petroleum revenues from production sharing contracts (PSCs) of both fields is 100% paid to Timor-Leste.

**AUTORIDADE NACIONAL DO PETRÓLEO E MINERAIS**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 31 DECEMBER 2019**

The financial statements were authorized for issuing in accordance with a resolution of the directors on 18 May 2020.

**2. SIGNIFICANT ACCOUNTING POLICIES**

**a. Basis of preparation**

The financial statements for ANPM are general purpose financial statements prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB). For the purposes of preparing the financial statements, ANPM is a not-for-profit entity.

The financial statements have been prepared on a historical cost basis, and amounts are presented in United States Dollars (which is also the ANPM's functional currency) except when otherwise indicated. The financial statements provide comparative information in respect of the previous period.

**New Accounting Standards and Interpretations adopted by ANPM**

ANPM has applied all new and amended Accounting Standards and Interpretations that were effective as at 1 January 2019, including:

*(i) IFRS 16 Leases (“IFRS 16”)*

ANPM adopted IFRS 16 as of 1 January 2019. IFRS 16 supersedes IAS 17 *Leases*, IFRIC 4 *Determining whether an Arrangement contains a Lease*, SIC-15 *Operating Leases-Incentives* and SIC-27 *Evaluating the Substance of Transactions Involving the Legal Form of a Lease*. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to recognise most leases on the balance sheet.

IFRS 16 provides a new lessee accounting model which requires a lessee to recognize assets and liabilities with a term of more than 12 months unless the underlying asset is of low value. The depreciation of the lease assets and interest on the lease liabilities are recognised in the statement of profit or loss.

Before the adoption of IFRS 16, ANPM classified each of its leases (as lessee) at inception as either a finance lease or operating lease. For operating leases, the leased item was not capitalised and the lease payments were recognised in the statement of profit or loss on a straight-line basis.

ANPM elected to use the recognition exemptions for lease contracts that, at the commencement date, have lease contracts for which the underlying asset is of low value ('low-value assets').

Lease liabilities are measured at the present value of future payments on the initial date of application, being 1 January 2019. Right of use assets were recognised at an amount equal to the lease liability.

At the date of initial application, the adoption of IFRS 16 has no material impact on ANPM's financial statements.

**AUTORIDADE NACIONAL DO PETRÓLEO E MINERAIS**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 31 DECEMBER 2019**

**(ii) IFRIC Interpretation 23 Uncertainty over Income Tax treatment**

The Interpretation addresses the accounting for income taxes when tax treatments involve uncertainty that affects the application of IAS 12 Income Taxes. It does not apply to taxes or levies outside the scope of IAS 12, nor does it specifically include requirements relating to interest and penalties associated with uncertain tax treatments. The Interpretation specifically addresses the following:

- Whether an entity considers uncertain tax treatments separately
- The assumptions an entity makes about the examination of tax treatments by taxation authorities
- How an entity determines taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates
- How an entity considers changes in facts and circumstances

As ANPM is not subject to income tax treatment, there is no impact arising from the adoption of IFRIC 23 on initial date of application on 1 January 2019.

**Adoption of new policies**

The following new accounting policies were adopted during the year following adoption of the new accounting standards.

**Leases – as a result of adoption of IFRS 16 with effect from 1 January 2019**

ANPM assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration

**As a Lessee**

ANPM applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. ANPM recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

**Right of use assets**

ANPM recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the asset.

**AUTORIDADE NACIONAL DO PETRÓLEO E MINERAIS**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 31 DECEMBER 2019**

***Lease liabilities***

At the commencement date of the lease, ANPM recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including insubstance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by ANPM and payments of penalties for terminating the lease, if the lease term reflects ANPM exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, ANPM uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

***Short-term leases and leases of low-value assets***

ANPM applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value (i.e. below \$5,000). Lease payments on short-term leases and leases of lowvalue assets are recognised as expense on a straight-line basis over the lease term.

**b. Current versus non-current classification**

The ANPM presents assets and liabilities in the statement of financial position based on current/noncurrent classification. An asset is current when it is:

- Expected to be realised or intended to be sold or consumed in the normal operating cycle
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled within the normal operating cycle
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The ANPM classifies all other liabilities as non-current.

**AUTORIDADE NACIONAL DO PETRÓLEO E MINERAIS**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 31 DECEMBER 2019**

**c. Government Grant**

*Subsidy from Timor-Leste Government*

Subsidy from the Timor-Leste Ministry of Petroleum and Mineral Resources are recognized where there is reasonable assurance that the grant will be received and all attached conditions will be complied with.

*Timor-Leste Government Funding for Petroleum Audits*

This funding received in advance from the Timor-Leste Ministry of Petroleum and Mineral Resources is intended to finance the costs of auditing petroleum contracts. Revenue is recognized when the related expenditure occurs. Any unspent portion as at the end of the financial year is recognized as a liability in the statement of financial position.

**d. Presentation Currency**

The financial statements are presented in US dollars, which is also the ANPM's functional currency.

*Transactions and balances*

Transactions in foreign currencies are initially recorded by ANPM at their respective functional currency spot rates at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Differences arising on settlement or translation of monetary items are recognized in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

**AUTORIDADE NACIONAL DO PETRÓLEO E MINERAIS**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 31 DECEMBER 2019**

**e. Property, plant and equipment**

The initial cost of a property, plant, equipment comprises its purchase price or construction cost, any cost directly attributable to bringing the asset to working condition for its intended use.

Property, plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of replacing part of the property, plant and equipment. When significant parts of property, plant and equipment are required to be replaced at intervals, the ANPM recognizes such parts as individual assets with specific useful lives and depreciates them accordingly. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in profit or loss as incurred.

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets as follows:

Computer equipment	3 – 5 years
Vehicles	4 – 6 years
Leasehold improvements	5 – 20 years
Office Equipment	3 – 5 years
Office Furniture	4 – 5 years
Other Assets	3 – 6 years

An item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the profit or loss when the asset is derecognized.

The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that carrying value may not be recoverable.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

**f. Intangible assets**

*Acquired intangible assets*

Acquired computer software licenses are capitalized on the basis of the costs incurred to acquire and install the specific software.

*Subsequent measurement*

All intangible assets are accounted for using the cost model whereby capitalized costs are amortized on a straight-line basis over their estimated useful lives, as these assets are considered finite. Residual values and useful lives are reviewed at each reporting date. In addition, they are subject to impairment testing. The useful lives of the intangible assets range from 2 to 4 years. Amortization has been included within depreciation and amortization.

Subsequent minor expenditures on the maintenance of computer software and brand names are expensed as incurred whilst major costs to improve the intangible assets are capitalized.

When an intangible asset is disposed of, the gain or loss on disposal is determined as the difference between the proceeds and the carrying amount of the asset, and is recognized in profit or loss within other income or other expenses.

**AUTORIDADE NACIONAL DO PETRÓLEO E MINERAIS**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 31 DECEMBER 2019**

**g. Financial instruments**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

***Financial Assets***

*Initial recognition and measurement*

Financial assets are classified, at initial recognition, as subsequently measured at amortized cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and ANPM's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which ANPM has applied the practical expedient, ANPM initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which ANPM has applied the practical expedient are measured at the transaction price determined under IFRS 15.

ANPM's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

*Subsequent measurement*

For purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at amortized cost (debt instruments)
- Financial assets at fair value through OCI with recycling of cumulative gains and losses (debt instruments)
- Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- Financial assets at fair value through profit or loss

***Financial assets at amortized cost (debt instruments)***

This is the only category of financial asset that ANPM has which includes cash and cash equivalents (including balances for Joint Petroleum Development Area and TL Cement Escrow Account) and other debtors.

ANPM measures financial assets at amortized cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows, and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

**AUTORIDADE NACIONAL DO PETRÓLEO E MINERAIS**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 31 DECEMBER 2019**

Financial assets at amortized cost are subsequently measured using the effective interest (EIR) method and are subject to impairment. Gains and losses are recognized in profit or loss when the asset is derecognized, modified or impaired.

*Derecognition*

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e., removed from the Group's consolidated statement of financial position) when:

- The rights to receive cash flows from the asset have expired, or
- ANPM has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the ANPM has transferred substantially all the risks and rewards of the asset, or (b) the ANPM has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

When ANPM has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, ANPM continues to recognize the transferred asset to the extent of its continuing involvement. In that case, ANPM also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that ANPM has retained.

*Impairment of financial assets*

ANPM recognizes an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that ANPM expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognized in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For trade receivables, ANPM applies a simplified approach in calculating ECLs. Therefore, ANPM does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime ECLs at each reporting date. ANPM has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

**AUTORIDADE NACIONAL DO PETRÓLEO E MINERAIS**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 31 DECEMBER 2019**

ANPM considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, ANPM may also consider a financial asset to be in default when internal or external information indicates that ANPM is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the ANPM. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

***Financial Liabilities***

*Initial recognition and measurement*

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities comprise of only trade and other payables (including balances related to Joint Petroleum Development Area Funds and TL Cement Escrow Account).

*Subsequent measurement*

All financial liabilities are subsequently measured at amortized cost using the EIR method, unless they meet certain criteria to be classified at fair value through profit or loss in accordance with IFRS 9.

Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit or loss.

ANPM has not designated any financial liabilities as at fair value through profit or loss.

*Derecognition*

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

**AUTORIDADE NACIONAL DO PETRÓLEO E MINERAIS**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 31 DECEMBER 2019**

ANPM considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, ANPM may also consider a financial asset to be in default when internal or external information indicates that the ANPM is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the ANPM. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

**h. Impairment of non-financial assets**

The ANPM assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the ANPM estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

**i. Cash and cash equivalents**

Cash and cash equivalents in the statement of financial position comprise cash at banks and cash on hand. For the purpose of the cash flow statement, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts.

*Joint Petroleum Development Area or Bayu Undan Petroleum receipts and payments*

The Timor Sea Treaty formed the Joint Petroleum Development Area (JPDA) within the Timor Sea, which is jointly controlled and managed for the benefit of the peoples of Timor-Leste and Australia.

In 2019, with the ratification of the Treaty on 30th August 2019, the management of the Former Joint Petroleum Development Area (JPDA) have been changed from the Designated Authority (DA) to Timor-Leste Authority for petroleum sector, however, since the changes was incurred in the middle of the calendar year, the following arrangement is applied to ensure that there were no interruptions to the petroleum operations carried out in Former JPDA in transitioning to Timor-Leste exclusive jurisdictions:

For the period prior to the ratification of the Treaty (period up to 29<sup>th</sup> August 2019) the following arrangement is applied:

- Under Article 6(b) of the Timor Sea Treaty between the Governments of Australia and Timor-Leste, ANPM has the juridical personality and such legal capacities under the law of both Contracting States as necessary for the exercise of its powers and the performance of its functions.

**AUTORIDADE NACIONAL DO PETRÓLEO E MINERAIS**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 31 DECEMBER 2019**

- ANPM, pursuant to Article 6 of the Timor Sea Treaty, is responsible for the management of activities relating to exploration for exploitation of the petroleum resources in the Former Joint Petroleum Development Areas. This includes the collection and distribution of proceeds generated from the sale of petroleum products produced from Bayu-Undan and Kitan field. Timor-Leste and Australia shall have title to all petroleum produced in the JPDA. of the petroleum produced in the Former JPDA, ninety (90) percent shall belong to Timor-Leste and ten (10) percent shall belong to Australia

From the date of ratification of the Treaty (30<sup>th</sup> August 2019) the following arrangement is applied:

- Under Article 9.1(a) of the Treaty, upon entry into force of the Treaty, the Timor Sea Treaty shall cease to be in force. Subsequently, in Article 1.3 for the Annex D of the Treaty, from the ratification of the Treaty, the parties (Timor-Leste and Australia) agree that Timor-Leste shall receive all future upstream revenue derived from Petroleum Activities from Bayu Undan Gas Field and Kitan Oil Field.
- Pursuant to those provisions in the Treaty, the State entitlement of upstream petroleum revenues from production sharing contracts (PSCs) of both fields is 100% paid to Timor-Leste.

Petroleum monies received and paid are held in a separate bank account for this purpose in the name of the ANPM. These monies together with any interest received and net of any bank charges incurred is distributed to the respective governments.

**j. Employee benefits**

Provision is made for certain employee benefits accumulated as a result of employees rendering services up to the reporting date. These benefits include wages. The liabilities are measured at their nominal amount and are expected to be settled within twelve months.

The employee contributes 4% out of their gross salary to be withheld by the ANPM. In addition, the ANPM contributes a further 6% of their gross salary to Social Security. On the 20<sup>th</sup> of the following month, the ANPM will transfer its social security contributions withheld to a designated bank account under the signature holder of the Social Security office. In addition to the SS Law obligations, the ANPM is also required to provide employee reimbursements for medical assistance from pre-approved healthcare providers of up to \$50 per employee.

The Timor-Leste Labor Law also states that all employees are entitled to one month of salary for every five years of service to their employer upon termination of their contract, regardless of the reason for termination. The ANPM provides for these entitlements, with the current portion (payable in less than 12 months) representing all the employees who have already reached five or ten years of service with the ANPM.

**AUTORIDADE NACIONAL DO PETRÓLEO E MINERAIS**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 31 DECEMBER 2019**

**k. Provisions, contingent liabilities and contingent assets**

Provisions are measured at the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the reporting date, including the risks and uncertainties associated with the present obligation. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. Provisions are discounted to their present values, where the time value of money is material.

Any reimbursement that the ANPM can be virtually certain to collect from a third party with respect to the obligation is recognized as a separate asset. However, this asset may not exceed the amount of the related provision.

No liability is recognized if an outflow of economic resources as a result of present obligation is not probable. Such situations are disclosed as contingent liabilities, unless the outflow of resources is remote in which case no liability is recognized.

**l. Economic dependence**

The ANPM is dependent upon the ongoing receipt of Timor-Leste Government support and contract service fee and development fees from contract operations to ensure the ongoing continuance of its operations.

At the date of this report, the Directors have no reason to believe that this financial support will not continue.

**m. Significant accounting judgements and estimates**

The preparation of the ANPM's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. No accounting judgements or estimates have been identified that have significant risk of causing material adjustment to the carrying amounts of assets and liabilities within the next accounting period.

**n. Allocation of costs**

The ANPM carries out functions on behalf of the Joint Petroleum Development Area (JPDA) under the Timor Sea Treaty as the Designated Authority, and also carries out functions in the Timor-Leste Exclusive Area (TLEA). Article 6 (b) (vi) of the Timor Sea Treaty states that the Designated Authority of the JPDA, being the ANPM, shall be financed from fees collected under the Petroleum Mining Code.

Each year the Joint Commission of the JPDA authorizes a budget of the ANPM based on their work plan for the year. The budget includes the percentages expenditure should be split between the JPDA and TLEA for each internal directorate.

On 30 August 2019, the Timor Sea Treaty has been replaced by a Treaty Establishing Maritime Borders in the Timor Sea which makes Timor-Leste as the designated authority on the JDPA. The change in the Treaty did not impact the allocation of the expenditure:

**AUTORIDADE NACIONAL DO PETRÓLEO E MINERAIS**  
**NOTES TO THE FINANCIAL STATEMENTS**

Contingencies	70	30	70	30

***o. Revenue***

***Contract services fees***

This fee is payable as soon as a PSC governed by the JPDA legislation is awarded to the operator, regardless of any exploration or development that has been carried out by the operator. Contract service fees are recognized when the right to receive the contract service fee has been established and can be measured reliably.

On 30 August 2019, the Timor Sea Treaty has been replaced by a Treaty Establishing Maritime Borders in the Timor Sea which makes Timor-Leste as the designated authority on the JDPA (see note 1 for further details). This also resulted in contract services fees received from Bayu Undan Gas Field and Kitan Oil fields being paid to the Government of Timor Leste instead of ANPM.

***Development fees***

This fee is payable by operators of offshore oil and gas fields that have entered the commercial development phase and applies for every subsequent calendar year. The regulatory services undertaken by the ANPM for the JPDA are funded by way of these development fees paid by operators for the Production Sharing Contracts (PSC). Development fees are recognized when the right to receive the development fee has been established and can be measured reliably. To the extent that there is a related condition attached, that would give rise to a liability to repay the amount, deferred income is recognized instead of revenue.

On 30 August 2019, the Timor Sea Treaty has been replaced by a Treaty Establishing Maritime Borders in the Timor Sea which makes Timor-Leste as the designated authority on the JDPA (see note 1 for further details). This also resulted in development fees received from Bayu Undan Gas Field and Kitan Oil fields being paid to the Government of Timor Leste instead of ANPM.

**AUTORIDADE NACIONAL DO PETRÓLEO E MINERAIS**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 31 DECEMBER 2019**

*Downstream fees*

The fees consist of licensing fees payable to the ANPM for any entity which is conducting downstream activity in Timor-Leste during the financial period. Downstream activity includes the installation and operation of fuel stations, the installation and operation of storage facilities and the importing/exporting of oil and gas. Downstream fees are recognized when the right to receive the downstream fee has been established. To the extent that there is a related condition attached that would give rise to a liability to repay the amount, deferred income is recognized instead of revenue.

*Downstream license – trading fees*

The fees consist of trading fees payable to the ANPM for any entity which is conducting downstream activity in Timor-Leste during the financial period. Downstream activity includes the installation and operation of fuel stations, the installation and operation of storage facilities and the importing/exporting of oil and gas. Downstream trading fees are recognized to the extent that it is earned (i.e completion of downstream activity). They are paid upfront and refundable. Therefore, they are only recognized to the extent of earned with the remaining as liabilities.

**3. ACCOUNTING STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE**

International Financial Reporting Standards and Interpretations that have recently been issued or amended but are not yet effective and have not been adopted by the ANPM for the financial reporting period ended 31 December 2019, are disclosed below. The Group intends to adopt these new and amended standards and interpretations, if applicable, when they become effective.

**Amendments to AASB 101 and AABS 108: Definition of Material**

In October 2018, the IASB issued amendments to IAS 1 *Presentation of Financial Statements* and IAS 8 *Accounting Policies, Changes in Accounting Estimates and Errors* to align the definition of ‘material’ across the standards and to clarify certain aspects of the definition. The new definition states that, ‘Information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity.’ The amendments to the definition of material is not expected to have a significant impact on ANPM’s financial statements. The amendments to IAS 1 and IAS 8 are required to be applied for annual periods beginning on or after 1 January 2020.

\* In 2017 and 2019 the Government of Timor-Leste transferred \$1,500,000 and \$825,000, respectively, to this ANPM account to fund the Timor-Leste National Library project. As the funds can only be used for the local project, the amount is restricted from being used for any other purpose. As at 31 December 2019, the restricted balance amounts to \$1,536,202 (31 December 2018: \$1,363,152).

\*\* The ANZ Dili Joint Petroleum Development Area ('JPDA') funds are held in name of the ANPM as the Designated Authority of the Joint Petroleum Development Area in terms of article 6 (b) (iv) of the Timor Sea Treaty. This treaty was in place until 29 August 2019. On 30 August 2019, the Timor Sea Treaty has been replaced by a Treaty Establishing Maritime Borders in the Timor Sea which makes Timor-Leste as the designated authority on the JDPA. Refer to Note 1 for further details regarding the arrangements in place during the transition from the Timor Sea Treaty to Treaty Establishing Maritime Borders.

The TL Cement Escrow Account represents the TL Government Fund, a special fund allocated to the TL Cement Project by The Government of Timor-Leste. The Councils of Minister resolved to transfer the funds the Government of Timor-Leste was required to contribute to the TL Cement Project to the ANPM whilst the Government of Timor-Leste promotes the preparation and completion of the investment of such amount by the State in the Project. The funds will be transferred to the TL Cement Project upon instruction from the Government of Timor-Leste however, the funds held in the escrow account may not exceed two calendar years, after which the amount deposited in the TL Cement Escrow Account shall automatically revert to The Consolidated Fund for East Timor (CFET) Account, unless otherwise directed by the Council of Ministers.

The funds received by ANPM are held with a bank account held with the Central Bank of Timor-Leste with joint signatories from both the ANPM and the Ministry of Finance required to authorize any transactions to occur.

In accordance with Certificate for the Minutes of Council of Ministers, interest earned on the fund held for the TL Cement Project will be used for development of the Project and/or to the exploitation of mineral resources.

	\$	\$
Lease liability – current	22,499	-
Lease liability – noncurrent	17,629	-
	<b>40,128</b>	-

---

Payments of \$975 for leases with low value (lease term of 12 months or less) were expensed in the statement of Profit or Loss and Other Comprehensive Income for the year ended 31 December 2019.

<b>12 PROVISIONS</b>	<b>2019</b>	<b>2018</b>
	\$	\$
Employee length of service compensation – current	174,605	147,307
Employee length of service compensation – non-current	155,793	29,298
	<b>330,398</b>	<b>176,605</b>

---

According to the Timor-Leste Labour Law, Article 56, all employees are entitled to one month of salary for every five years of service to their employer upon termination of their contract. This entitlement is payable by the ANPM regardless of the reason for termination of the employee's contract. The current portion of this provision represents the total entitlement due to employees who have reached five or ten years of service. The noncurrent portion of this provision relates to conditional entitlement of employee's length of service compensation and based on probability of reaching the employee's service to five years or ten years of service.

**18 FINANCIAL INSTRUMENTS**

**a) Financial risk management objectives and policies**

The ANPM's principal financial instruments comprise receivables, payables, cash and Corporate Credit Card Security placement (including the JPDA fund and TL Cement Escrow Account related balances).

The ANPM manages its exposure to financial risks, in accordance with its policies. The objectives of the policies are to maximize the income to the ANPM whilst minimizing the downside risk.

One of the requirements under Production Sharing Contracts ('PSC') entered into between the ANPM and exploration companies is that the company must provide adequate security by way of a bank issued Letter of Credit, or equivalent security. The security document provides additional certainty that the exploration companies will meet their minimum expenditure requirements under the PSC.

The Authority's activities expose it to normal commercial financial risk. The main risks arising from the ANPM's financial instruments are foreign exchange risk, interest rate risk, credit risk and liquidity risk. Risks are considered to be low.

Primary responsibility for the identification and control of financial risk rests with Management under the authority of the ANPM Board of Directors.

**b) Net fair value of financial assets and liabilities**

Cash and cash equivalents: The carrying amount approximates fair value because of their short-term maturity.

Trade and other receivables and trade and other payables: Their carrying amounts approximates fair value due to their short-term nature.

**c) Foreign Exchange Risk**

The ANPM generally operates using United States denominated currency held in US dollar bank accounts. The ANPM is exposed to foreign exchange risk arising primarily from amounts owing to suppliers denominated in foreign currencies.

**AUTORIDADE NACIONAL DO PETRÓLEO E MINERAIS  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 DECEMBER 2019**

---

**d) Interest Rate Risk**

Interest rate risk refers to the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The ANPM is exposed to interest rate risk primarily from its cash surpluses invested in short term interest bearing deposits. The deposits are only made with reputable financial institutions with maturity dates generally being no more than 30 days.

Monies held on behalf of the Timor-Leste governments may be placed in short-term term deposits of generally less than one month. Any interest accruing is paid to the governments and does not form part of the ANPM's income.

---

**e) Credit Risk**

Credit risk arises from the financial assets of the entity, which comprise cash and cash equivalents and trade and other receivables. The company's exposure to credit risk arises from potential default of the counter party, with a maximum exposure equal to the carrying amount of these instruments. Exposure as at balance sheet date is addressed in each applicable note.

The ANPM has a significant concentration to credit risk through its cash and deposits with banks. The main concentration is with one international bank with a credit rating (based on Standard & Poor's) of AA- and the Central Bank of Timor-Leste in relation to the TL Cement Project Escrow Account.

---

**f) Liquidity Risk**

Liquidity risk arises from the financial liabilities of the entity and ANPM's subsequent ability to meet its obligations to repay its financial liabilities as and when they fall due.

The ANPM has a system of reducing its exposure to liquidity risk by monitoring its cash flows closely through rolling future cash flows and monitoring the ageing of receivables and payables. The payables reflected on the statement of financial position are all due within 12 months from balance date. ANPM has no non-current liabilities. Refer to note 5 and note 14 for the nature of the TL Cement Escrow account related assets and liabilities.

---

**19 CONTINGENT LIABILITIES & ASSETS**

There are no contingent liabilities or contingent assets as at 31 December 2019 and 2018.

---

**20 EVENTS AFTER THE REPORTING DATE**

Subsequent to end of the financial year, the COVID-19 outbreak was declared a pandemic by the World Health Organization in March 2020.

The outbreak and the response of Governments in dealing with the pandemic is interfering with general activity levels within the community, the economy and the operations of our business. The scale and duration of these developments remain uncertain as at the date of this report however they will have an impact on our earnings, cash flow and financial condition.

It is not possible to estimate the impact of the outbreak's near-term and longer effects or Governments' varying efforts to combat the outbreak and support businesses. This being the case, we do not consider it practicable to provide a quantitative or qualitative estimate of the potential impact of this outbreak on the Group at this time. The financial statements have been prepared based upon conditions existing at 31 December 2019 and considering those events occurring subsequent to that date, that provide evidence of conditions that existed at the end of the reporting period. As the outbreak of COVID-19 occurred after 31 December 2019, its impact is considered an event that is indicative of conditions that arose after the reporting period and accordingly, no adjustments have been made to financial statements as at 31 December 2019 for the impacts of COVID-19.

There are no other events post the balance date that would have material impact on the ANPN's future operations or financial position.

**22 COMMITMENTS**

At 31 December 2019, ANPM has commitments of \$338,256 (2018: Nil) relating to the completion of IT equipment.

---

**23 KEY MANAGEMENT PERSONNEL**

---

Key management personnel are those having authority and responsibility for planning, directing and contracting activities of the entity of the entity including whether executive or non-executive. Key management consist of several directorates such as Board of Director, President, Mineral, Vice President, Single Auditor, JPDA, Commercial, Development & Production, Exploration & Acreage Release, Corporate Service, PSC & Legal and Downstream Directorates. Upon the Maritime Boundary ratification, the JPDA Directorate becomes redundant. Disclosures regarding remuneration of key management personal are provided in the remuneration as following:

Long-term employee benefit	55,519	47,378
Total compensation paid to key management personnel	<b>600,961</b>	<b>523,414</b>

---

**24 TAXES**

---

*Income and deferred tax*

ANPM is being a government entity, is not subject to income tax as confirmed by the Ministry of Finance on 23 February 2015.

On 27 February 2015, the ANPM obtained legal advice from DLA Piper stating that the Authority is exempt from Australian income tax under the International Organisations (Privileges and Immunities) Act 1963 and the Timor Sea Treaty Designated Authority (Privileges and Immunities) Regulations 2003.

*Withholding tax*

Depending on the contractual arrangement, withholding taxes are either withheld against suppliers in specified industries or grossed up at the applicable rates and the monies paid over to the government of Timor-Leste.

**26 RESERVES**

*Capital Reserve*

The capital asset reserve is used to classify equity (accumulated funds) during the financial period that represents cash used to purchase assets outside of the ANPM's planned budget for the year. At the end of the 2019 financial period, \$Nil remained in the capital asset reserve (2018: \$350,000).

*Expenditure Reserve*

The expenditure reserve is used to classify equity (accumulated funds) during the financial period that is expected to be used to fund part of the ANPM's expenditure. It has to be agreed and approved at the ANPM budget approval. In the 2019 financial period, \$924,038 (2018: \$Nil) has been established, which is higher than the current year deficit of \$402,757.

## **Independent auditor's report to the Directors of Autoridade Nacional do Petróleo e Minerais**

### **Opinion**

We have audited the Statement of Petroleum Revenue Receipts and Payments ("the Statement") of Autoridade Nacional do Petróleo e Minerais ("the Authority"), which comprises the statement of petroleum revenue receipts and payments for the year ended 31 December 2019, notes to the statement of petroleum revenue receipts and payments, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the Statement of Petroleum Revenue Receipts and Payments is prepared, in all material respects, in accordance with the accounting policies disclosed in Note 2 of the Statement.

### **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Statement* section of our report. We are independent of the Authority in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the Statement in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### **Emphasis of matter - Basis of accounting**

We draw attention to Note 2 to the Statements which describes the basis of accounting. The Statement is prepared to assist the Authority to meet the requirements of Decree Law on the establishment of the Authority, the Timor-Leste Petroleum Activities Law, and the Timor Sea Treaty ('Treaty') between the Governments of Australia and the Democratic Republic of Timor-Leste. As a result, the Statement may not be suitable for another purpose. Our opinion is not modified in respect of this matter.

### **Responsibilities of the Directors for the statement**

The Authority's Directors are responsible for the preparation of the Statement in accordance with the significant accounting policies disclosed in Note 2 of the Statement and for such internal control as the Directors determine is necessary to enable the preparation of the Statement that is free from material misstatement, whether due to fraud or error.

### **Auditor's responsibilities for the audit of the statement**

Our objectives are to obtain reasonable assurance about whether the Statement is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this Statement.

**Building a better  
working world**

As part of an audit in accordance with International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the Statement, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates, if any, and related disclosures made by the directors.
- ▶ Evaluate the overall presentation, structure and content of the Statement, including the disclosures, and whether the Statement represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**NOTES TO THE STATEMENT OF PETROLEUM REVENUE RECEIPTS AND PAYMENTS**  
**FOR THE YEAR ENDED 31 DECEMBER 2019**

## **1. Nature of Operations**

Autoridade Nacional do Petróleo e Minerais (ANPM) is a public institution created pursuant to the Decree Law No.27/2019 dated 27<sup>th</sup> August 2019 as the 2<sup>nd</sup> amendment to the Decree Law no. 20/2008 of the Democratic Republic of Timor-Leste dated 19 June 2008. The ANPM undertaken its role and functions as Regulatory Authority on behalf of the Ministry Responsible for Petroleum and Mineral Sectors to administer and regulate the upstream to downstream petroleum sectors and all the Mineral sectors within Timor-Leste Onshore and Offshore territory. In exercising its power and function, the ANPM shall act in accordance with Maritime Boundary Treaty (Treaty) between the Republic Democratic of Timor-Leste and Australia, including Special Regime for Greater Sunrise provided in Annex B of the Treaty, Decree Laws for implementation of the Annex D of the Treaty and other existing legislations and regulations applicable in the Territory of Timor-Leste.

In 2019, with the ratification of the Treaty on 30th August 2019, the management of the Former Joint Petroleum Development Area (JPDA) have been changed from the Designated Authority (DA) to Timor-Leste Authority for petroleum sector, however, since the changes occurred in the middle of the calendar year, the following arrangement is applied to ensure that there were no interruptions to the petroleum operations carried out in Former JPDA in transitioning to Timor-Leste exclusive jurisdictions:

*For the period prior to the ratification of the Treaty (period up to 29<sup>th</sup> August 2019) the following arrangement is applied:*

Under Article 6(b) of the Timor Sea Treaty between the Governments of Australia and Timor-Leste, ANPM has the juridical personality and such legal capacities under the law of both Contracting States as necessary for the exercise of its powers and the performance of its functions.

ANPM, pursuant to Article 6 of the Timor Sea Treaty, is responsible for the management of activities relating to exploration for exploitation of the petroleum resources in the Former Joint Petroleum Development Areas. This includes the collection and distribution of proceeds generated from the sale of petroleum products produced from Bayu-Undan and Kitan field.

Article 4 of the Timor Sea Treaty sets out the sharing of petroleum production between the Governments of Timor-Leste and Australia as follows:

- (i) Timor-Leste and Australia shall have title to all petroleum produced in the JPDA. Of the petroleum produced in the Former JPDA, ninety (90) percent shall belong to Timor-Leste and ten (10) percent shall belong to Australia.
- (ii) To the extent that fees referred to in the Treaty, article 6(b)(vi) and other income are inadequate to cover the expenditure of the Designated Authority in relation to this Treaty (Timor Sea Treaty) , that expenditure shall be borne in the same proportion as set out in paragraph 6(a).

*From the date of ratification of the Treaty (30<sup>th</sup> August 2019) the following arrangement is applied:*

Under Article 9.1(a) of the Treaty, upon entry into force of the Treaty, the Timor Sea Treaty shall cease to be in force. Subsequently, in Article 1.3 for the Annex D of the Treaty, from the ratification of the Treaty, the parties (Timor-Leste and Australia) agree that Timor-Leste shall receive all future upstream revenue derived from Petroleum Activities from Bayu Undan Gas Field and Kitan Oil Field.

Pursuant to those provisions in the Treaty, the State entitlement of upstream petroleum revenues from production sharing contracts (PSCs) of both fields is 100% paid to Timor-Leste.

Those arrangement are used to manage payments of State(s) entitlements made by contracting companies during the year 2019.

The Contracting companies operate in both the Bayu-Undan and Kitan fields.

The Bayu-Undan fields lie in the PSC TL-SO-T 19-12 (former PSC JPDA 03-12) and PSC TL-SO-T 19-13 (former PSC JPDA 03-13) contract areas. Discovered in 1995, with first production being in 2004, the Bayu Undan field is approximately 250 kilometres from Timor-Leste and 500 kilometres from the Australian coast. Bayu-Undan upstream produces condensate, liquefied petroleum gas, while liquefied natural gas is produced at the Darwin liquefaction plant under the downstream facilities. ConocoPhillips Corporation is the operator with a 56.94% interest, while its joint venture partners hold the following interest: Santos Corporation (11.49%); Inpex Corporation (11.38%); Eni Australia (10.99%); and Tokyo Timor Sea Resources (aggregate 9.2%).

The Kitan oilfield is in the PSC TL-SO-T 19-10 (former PSC JPDA 06-105) contract area. Discovered in 2008 it lies approximately 170 kilometres offshore the Timor-Leste coast and 500 kilometres from the Australian coast.

**AUTORIDADE NACIONAL DO PETRÓLEO**  
**NOTES TO THE STATEMENT OF PETROLEUM REVENUE RECEIPTS AND PAYMENTS**  
**FOR THE YEAR ENDED 31 DECEMBER 2019**

The Kitan field produces oil. Eni Corporation is the operator with a 40% interest, while its joint venture partners Inpex Corporation has 35% and Talisman Energy Resources has 25% interest.

**2. Significant accounting policies**

**a. Basis of preparation**

The statement of petroleum revenue receipts and payments is prepared on a cash basis. The statement is prepared for monies received by the ANPM as a Designated Authority under the Timor Sea Treaty. These petroleum proceeds are held on behalf of the Timor-Leste and Australia Governments in an ANZ bank account in the name of the ANPM and are distributed to the two governments on a regular basis, interest earned and net of bank charges incurred. The accounting policies have been applied consistently throughout the period. All entitlement from the date of the ratification of the Treaty are distributed only to the Government of Timor-Leste in accordance with the terms provided in the Treaty (see Note 1 for further details).

**b. Petroleum revenue receipts**

Petroleum revenue receipts are recognised on receipt in the ANZ bank account. Petroleum receipts comprise of First Tranche Profits and Profits Oil and Gas as defined in the respective PSCs.

**c. Payments**

Payments are the distributions to the Timor-Leste and Australia governments in terms of the Treaty and the Decree Law No.27/2019 dated 27 August 2019 as the 2<sup>nd</sup> amendment to the Decree Law 20/2008. After the ratification of Timor-Leste and Australian Maritime Boundary on the 30<sup>th</sup> August 2019, Australian entitlement of 10% of the JPDA Revenue (Bayu Undan) does no longer apply. Prior to the ratification, there was production sales transaction which would at least take one or two months to finalize the payment and the last payment to both countries was in November. From November onward, the government of Timor-Leste is now entitling to one-hundred per cent (100%) to any production sold.

**d. Presentation currency**

The ANPM's statements of receipts and payments are presented in United States Dollars.

**e. Cash and Cash Equivalents**

Cash and cash equivalents includes amounts held in current and short term deposits at ANZ bank. Amounts held represent petroleum proceeds (royalty & profit oil & gas) received, with interest and net of bank charges.

These monies together with any interest received and net of any bank charges incurred is distributed to the respective governments. Distribution is made to the Petroleum Fund account of the Central Bank of Timor-Leste and the Department of the Resources, Energy and Tourism account, Australia. Distributions are made on a monthly basis for royalties and profit oil generated from Bayu-Undan is distributed within the month on the following day the fund deposited by contracting companies in ANPM ANZ account.

**f. Interest**

Interest earned is made up mainly from fund held during the month from ANZ bank in any given month prior to the funds being distributed to the respective governments in the following month.

Profit oil interest is received as compensation to the delay of profit oil payment on ANPM's share of profit oil.

## **Independent auditor's report to the Directors of the Autoridade Nacional do Petróleo e Minerais**

### **Opinion**

We have audited the Statement of Mineral Revenue Receipts and Payments ("the Statement") of Autoridade Nacional do Petróleo e Minerais ("the Authority"), which comprises the statement of mineral revenue receipts and payments for the year ended 31 December 2019, notes to the statement of mineral revenue receipts and payments, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the Statement of Mineral Revenue Receipts and Payments is prepared, in all material respects, in accordance with the accounting policies disclosed in Note 2 of the Statement.

### **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Statement* section of our report. We are independent of the Authority in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the Statement in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### **Emphasis of matter - Basis of accounting**

We draw attention to Note 2 to the Statements which describes the basis of accounting. The Statement is prepared to assist the Authority to meet the requirements of Decree Law on the establishment of the Authority and the Ministerial Diploma. As a result, the Statement may not be suitable for another purpose. Our opinion is not modified in respect of this matter.

### **Responsibilities of the Directors for the statement**

The Authority's Directors are responsible for the preparation of the Statement in accordance with the significant accounting policies disclosed in Note 2 of the Statement and for such internal control as the Directors determine is necessary to enable the preparation of the Statement that is free from material misstatement, whether due to fraud or error.

### **Auditor's responsibilities for the audit of the statement**

Our objectives are to obtain reasonable assurance about whether the Statement is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this Statement.

**Building a better  
working world**

As part of an audit in accordance with International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the Statement, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates, if any, and related disclosures made by the directors.
- ▶ Evaluate the overall presentation, structure and content of the Statement, including the disclosures, and whether the Statement represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

## **NOTES TO THE STATEMENT OF MINERAL REVENUE RECEIPTS AND PAYMENTS**

### **FOR THE YEAR ENDED 31 DECEMBER 2019**

#### **1. Nature of Operations**

Autoridade Nacional do Petróleo e Minerais (ANPM) is a public institution created pursuant to the Decree Law No. 27/2019 of 27th August 2019 as the 2nd Amendment to the Decree Law no. 20/2008 of the Democratic Republic of Timor-Leste dated 19 June 2008. The ANPM undertaken its role and functions as Regulatory Authority on behalf of the Ministry Responsible for Petroleum and Mineral Sectors to administer and regulate the upstream to downstream petroleum sectors and all the Mineral sectors within Timor-Leste Onshore and Offshore territory. In exercising its power and function, the ANPM shall act in accordance with the regulatory framework applicable in the Territory of Timor-Leste.

Under Article 28.1(a) of Decree Law No.6/2015, the Ministerial Diploma applies to the exploration and mining of construction materials and regulates the licensing procedure for Mining Activities in the territory of Timor-Leste. Under the Ministerial Diploma; prospecting, exploring and mining activities are to be levied through a licencing and mining fee. Article 8.3 of the Diploma, the assessment of these fees is to be managed by the ANPM, and paid to a designated bank account nominated by the Ministry of Finance of Timor-Leste.

#### **2. Significant accounting policies**

##### **a. Basis of preparation**

The Statement of Mineral Revenue Receipts and Payments (“the Statement”) is prepared on a cash basis. The Statement is prepared for monies received by the ANPM as a Regulatory Authority under the Ministerial Diploma. These licencing and mining fee are deposited to the Ministry of Finance of Timor-Leste bank account in a BNU Timor and distributed to the main account immediately whenever the operator makes payment, net of bank charges incurred. The accounting policies have been applied consistently throughout the period.

##### **b. Mineral revenue**

Mineral revenue is recognised on receipt in the BNU Timor bank account. Mineral revenue comprises of Prospecting Fees, Exploration Fees and Mining Extraction Fees. These are defined in Article 7 and 8 of the Mineral Ministerial Diploma No. 64/2016. Such fees are to be collected from the holder of mineral rights who undertakes the mining activities. Article 42 defines the revocation of licences, including the suspension and ceasing of mining activities, and the payment of compensation fees.

- License Fees**

Article 7 of the diploma defines License fees levied on different mining activities, except artisanal mining for which no fee is levied. The fee stated under this article is applicable to both new and extended license.

(a) Artisanal, no fee applied

(b) Prospecting, Five hundred US Dollars (USD 500.00);

(c) Exploration, One thousand and five hundred US Dollars (USD 1,500.00);

(d) Mining;

(i) Medium-scale mining, Five hundred US Dollars (USD 500.00);

(ii) Large-scale mining, One thousand and five hundred US Dollars (USD 1,500.00)

- Mining Extraction Fees**

Article 8 defines that mining extraction fees levied on the value of construction materials, process materials and dimension and ornamental stones, and holder of mineral rights who undertakes the mining activities shall pay mining fees in accordance with the mining category and fees.

- Compensation Fees**

Article 42.2 defines what constitutes the mining activities without holding valid license; the Regulatory Authority shall undertake the following measures:

(a) Suspend the mining activities and obliges the natural or legal person to pay for construction materials, process materials or dimensions and ornamental stones collected or extracted; and

**AUTORIDADE NACIONAL DO PETRÓLEO E MINERAIS OF TIMOR-LESTE****NOTES TO THE STATEMENT OF MINERAL REVENUE RECEIPTS AND PAYMENTS****FOR THE YEAR ENDED 31 DECEMBER 2019****2. Significant accounting policies (continued)**

- (b) Close or shut-down the mining activities if natural or legal person does not apply for mining activity license within thirty (30) working days of notification from the Regulatory Authority.
- Surface Fee  
Surface Fee levied based on the Mining Prospecting Contract between Republic Democratic of Timor-Leste represented by His Excellency Minister of Mineral Resources pursuant to the Government Resolution No.7/2018 of 4th of April with Peak Everest Mining Ltd.
- c. **Payments**  
Payments are distributed to the Ministry of Finance of Timor-Leste, in accordance with the Ministerial Diploma. The operators make payment to the Mineral Operation Royalty account in BNU owned by Ministry of Finance Timor-Leste and it is transferred immediately to the main account and are net of bank charges.
- d. **Foreign currency**  
The ANPM's statement of receipts and payments are presented in United States Dollars.
- e. **Bank Charges**  
Bank charges are applied to amounts deposited by the contract operator into the BNU Timor temporary bank account.

**3. LICENSE FEES**

	<b>2019</b> \$	<b>2018</b> \$
